Section 2

Quick Start Guide

First download the software onto your computer!

1. After you download and install the software, you will have an icon on your desktop that looks like this
2. Double click this icon to open the program.
3. Once the program is open, follow the prompt screens.
4. The first screen will welcome you to the LifeLeft Life Estimator. To begin the program click the start button on the lower bottom half of the screen.
5. After you click this button, you will be asked several questions that need a yes or no answer. If you don't know the answer to the question, just choose no until you can find out.
6. After you answer all the questions, your results will be displayed for you.
7. There will be an option to start again or end program once your results are displayed.

Section 3

Troubleshooting

If your program suddenly closes.

-Take a deep breath and realize that sometimes, just like you, your computer needs a break. To reboot, save all your work, then close all your windows and restart your machine from your start menu. (This feature may differ depending on your operating system. Please refer to your PC/ Laptop's manual to find out how to reboot properly.) Once your computer is rebooted, double-click on the LifeLeft icon to begin program.

If you cannot open the program.

-There is a chance that a problem may have occurred when downloading the program. Please call our 24/7 customer support team to further assist you in troubleshooting your issue.

Pre-existing issues may exist on your machine without your knowledge. If you are already having issues programs on your PC/Laptop or with the device itself, you should take your machine in to a professional to further explore the source of the problem.
